A personal letter to the electorate of West Shoebury

This is the third year that I am putting myself forward to represent West Shoebury on the Southend District Council. This time I have the personal backing of Councillors Martin Terry and Ron Woodley, who are the leadership team of the Independent group in Southend. They urged me to stand as an Independent but as I am the Eastern Counties Chairman for the UK Independence Party I thought that would be disingenuous. I do however have no obligation to follow a Party whip and if elected will be working with the Independent Group.

I am an award winning business Director, who has lived in West Shoebury for 20 years. I am 50 this year and have two children at local schools. My wife is a wealth management advisor who also runs local women's business groups and has been Chairman of governors of one of our infant schools. I believe I have the energy, experience and Political freedom to make a real difference on behalf of the residents of West Shoebury.

These are hard times. Energy bills are soaring to pay for useless wind turbines, our pensioners' hard earned income is being taxed, young people see no hope of a local job and those unfortunate enough to require support services are being trapped in their homes as services are reduced. I feel very strongly that ordinary local people should not be suffering whilst millionaires get tax cuts, we pay to accommodate another 5 million immigrants into the UK and continue to spend £Billions in corrupt countries.

A Councillor is elected **for 4 years**; so is it not strange that suddenly in **the past 4 weeks** we have seen the current West Shoebury Councillors conduct a resident's survey, launch a "shop local" initiative and "consult" us on traffic management.

On the reverse side of this letter is my personal statement of what I will do **in my first year** should you choose to elect me.

Electing me will give West Shoebury an experienced and professional alternative voice and will tell the current Political establishment that something needs to change.

This election is between myself and the third Conservative. The Labour and the Lib Dem candidates are both good young men but have no chance of winning here and are away at University for most of the year. I urge you to make the positive choice and in return I will work hard to serve you and our community.

Kind Regards

James Moyies

My First Year

1. I will use some of my £8,000 annual allowance to conduct a full and comprehensive residents survey and will publish the findings in a professionally produced report.
2. I will deliver a roads and pavements action postcard to every household to encourage the reporting of road and pavement defects.
3. I will Produce a full business plan to identify what needs to be done to fully re-open and utilise the multi-million pound Youth Centre.
4. I will engage with at least 20 new households a week to seek out local views.
5. I will produce a monthly e-zine to keep residents up to date.
6. I will continue to support the local Residents Association in advising house owners with restrictive covenants when they are faced with paying thousands of pounds for making basic home improvements.
7. I will work with the Independent group to build a strategy for local jobs.
8. I will fight all plans to build houses on the green spaces around our town.
9. I will put Southend people first.
10. I will support local pensioner and support groups to ensure they are not being disadvantaged when funding is allocated.

MOYIES JAMES WILLIAM
